35 In FM FA module, a system behavior is changed from May 2006. What is it?

From 11 May 2006, the system <u>forces the user to fill in the Asset Key when creating a</u> <u>Fixed Asset record</u> by all the methods, including:

- Manual Input;
- Fixed Asset ADI upload; and
- Transferred from Account Payables (AP) Invoice.

It is to fix a problem that occurred in searching the Mass Additions records according to the inputted query criteria. The problem occurred when the Asset Key was empty. The problem symptom is explained as followings:-

Fixed Problem Symptom

In Fixed Asset (FA) module of FM system, navigate to "Mass Additions > Prepare Mass Additions", and then click "Find" button, the system will list out all the Mass Additions records at the form of "Mass Additions Summary".

Invoice Number	Line	Queue	Description	Units	
INV0001		POST	HW Test ADI to FA on 27-FEB	4	
3		POST	HW Test ADI to FA on 27-FEB	5	
INV0002		ON HOLD	HW Test ADI to FA on 27-FEB	2	
1		ON HOLD	HW Test ADI to FA on 27-FEB	5	
2		ON HOLD	HW Test ADI to FA on 27-FEB	5	
4		NEW	HW Test ADI to FA on 27-FEB	5	
4		DELETE	HW Test ADI to FA on 27-FEB	5	
3		DELETE	HW Test ADI to FA on 27-FEB	5	

When the user select a Fixed Asset record, which has some mandatory fields blank, and then click the "Open" button, the system will pop-up a window to display the details of that Mass Additions record. However, when the user clicks the "Done" button from the "Mass Additions" form, there is an alert message prompted to inform user that the Mass Additions record cannot pass the validation, due to some necessary fields leaving blank.
